Dallas County Reports 250 Additional Positive 2019 Novel Coronavirus (COVID-19) Cases

DALLAS -- As of 11:00am May 9, 2020, Dallas County Health and Human Services is reporting 250 additional positive cases of 2019 novel coronavirus (COVID-19), bringing the total case count in Dallas County to 5,619, including 143 deaths.

The additional 8 deaths being reported today include:

- A man in his 30's who was a resident of the City of Garland, and had been found deceased at home.
- A man in his 50's who was a resident of the City of Dallas, and had been critically ill in an area hospital.
- A man in his 50's who was a resident of the City of Cockrell Hill, and had been critically ill in an area hospital.
- A man in his 60's who was a resident of a long-term care facility in the City of Dallas, and had been critically ill in an area hospital.
- A woman in her 70's who was a resident of the City of Balch Springs, and had been critically ill in an area hospital.
- A man in his 80's who was a resident of a long-term care facility in the City of Dallas, and had been hospitalized.
- A woman in her 80's who was a resident of a long-term care facility in the City of Richardson, and had been critically ill in an area hospital.
- A woman in her 80's who was a resident of Farmers Branch, and had been critically ill in an area hospital.

Of cases requiring hospitalization who reported employment, about 79% have been critical infrastructure workers, with a broad range of affected occupational sectors, including: healthcare, transportation, food and agriculture, public works, finance, communications, clergy, first responders and other essential functions. Of cases requiring hospitalization, two-thirds have been under 65 years of age, and about half do not have high-risk chronic health conditions. Diabetes has been an underlying high-risk health condition reported in about a third of all hospitalized patients with COVID-19. Of the 143 total deaths reported to date, over a third have been associated with long-term care facilities.

New cases are being reported as a daily aggregate, with a more detailed summary report updated Tuesdays and Fridays.

“Today’s numbers close out our week which has seen more positive cases than ever before. For the week, we had a total of 1,720 cases, a 246 daily average and 33 deaths. That compares to 990, 141 and 29 for the previous week. Residents should continue to avoid crowds, practice six foot distancing, wear a cloth covering at businesses and on public transportation and practice good hygiene. #StayHomeSaveLives to #FlattenTheCurve,” said Dallas County Judge Clay Jenkins.

The Centers for Disease Control and Prevention (CDC) recommends taking everyday preventive actions to help prevent the spread of respiratory diseases, including:

- Stay home when you are sick, except to seek medical care
- Wash your hands with soap and water for at least 20 seconds and help young children to do the same. If soap and water are not available, use an alcohol-base hand sanitizer with at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid close contact with people who are sick.
- Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipes.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash. If you do not have a tissue, use your sleeve, not your hands.
